Dear Mira,

Hi, How are you there? I hope you are fine as usual. Mira, I am writing to tell you my experience as a voluntary worker in school. We cleaned the area around our school, mowed the grass and bushes behind our classroom and repainted walls.

As the chairman of the students organization (OSIS), together with our committee members, we planned and discussed the right time to do this voluntary work. After a long discussion, finally we agreed to hold it last Saturday.

On that day, fortunately we did not have to study as we had just finished our final examination. So, while waiting for our teachers who were busy writing our 'report book' and with the help of Pak Bejo we did it. We were having a good time because we could play while we were working. I wished you could join us at that time.

What about you? How do you spend your free time at school? How's your Karate group at school? I hope to hear from you, write me soon, Thanks.

Best Wishes,
Seno

The following text is for questions 22 to 26.

The cycle rickshaw is a small-scale local means of transport; it is also known by a variety of other names such as pedicab, bikecab, cyclo, becak, or trishaw or, simply rickshaw which also refers to auto rickshaws pulled by a person on foot. Cycle rickshaws are human-powered, a type of tricycle designed to carry passengers in addition to the driver. They are often used on a hire basis. Cycle rickshaws are widely used in major cities around the world, but most commonly in cities of South, Southeast and East Asia.

Cycle rickshaws in Indonesia are called becak. Becak was considered an icon of the capital city of Jakarta prior to its ban in the 1970s. Citing concerns of public order, the city government forbade them on the city's main streets. However, many becaks still operate near slums throughout the city. Attempts at reinforcing the ban resulted in large-scale seizures of the vehicle in the late 1990s and in 2007.

22. What is the text about? A
- A. modern vehicle
 - B. traditional vehicle
 - C. four-wheeled vehicle

The following text is for questions 27 to 30.

Helen Adams Keller was born as a healthy child on June 27th, 1880, to Captain Arthur H. and Kate Adams Keller of Tuscombua. At the tender age of 19 months, she was stricken with a severe illness which left her blind and deaf.

At the age of six, the half-wild, deaf and blind girl was taken to see Dr. Alexander Graham Bell by her parents. From this visit, Helen met her teacher, Anne Mansfield Sullivan. She was so gifted that by the end of August, in six months, she knew 625 words, learned Braille and learned to write shortly afterward.

By the age of 10, Helen had mastered Braille as well as the manual alphabet and even learned to use the typewriter. By the time she was 16, Helen could speak well enough to go to preparatory school and to college. In 1904, she graduated "cum laude" from Radcliffe College. The teacher stayed with her through those years, interpreting lectures and class discussion for her.

Helen Keller became one of world's most remarkable women. She dedicated her life to improve the conditions of the blind and the deaf-blind around the world, lecturing in more than 25 countries on the five major continents. Wherever she appeared, she brought new courage to millions of blind people.

27. How did Helen Keller meet her teacher?
- They met each other at Radcliffe College.
 - Her parents took her to Alexander Graham Bell.
 - She met Ms. Sullivan after her parents took her to Dr. Bell.
 - Ms. Sullivan became Keller's teacher after getting an award.

The following text is for questions 39 to 42.

Gardenia plants are popular for the strong sweet scent of their flowers. Gardenia is the national flower in Pakistan. In Japan and China, the flower is called Kuchinashi (Japanese) and Zhi zi (Chinese).

Gardenia plants are evergreen shrubs. Their small trees can grow to 1 – 5 meters tall. The leaves are 5 – 50 centimeters long and 3 – 25 centimeters broad, dark green and glossy with a leathery texture. The flowers are in small groups, white, or pale yellow, with 5-12 lobes (petals) from 5-12 centimeters diameter. They usually bloom in mid-spring to mid-summer. Many species have strong aroma.

To cultivate gardenia as a house plant is not easy. This species can be difficult to grow because it originated in warm humid tropical areas. It demands high humidity and bright (not direct) light to thrive. It flourishes in acidic soil with good drainage and thrives on 20° – 23° C during the day and 15° – 16° C in the evening. Potting soils developed specifically for gardenias are available. It grows no larger than 18 inches in height and width when grown indoor. In climates where it can be grown outdoors, it can reach the height of 6 feet. If water hits the flowers, they will turn brown.

39. How tall is a gardenia tree?
- A. 3 – 25 cm.
 - B. 5 – 12 cm.
 - C. 5 – 50 cm.
 - D. 1 – 5 m.
40. What is the main idea of the last paragraph?
- A. It is easy to plant a gardenia tree.
 - B. A gardenia plant needs high humidity.
 - C. It's not easy to plant gardenia as a house plant.
 - D. A good drainage is important for gardenia plant.
41. From the text we know that
- A. people don't like the strong scent of flower
 - B. Gardenia is widespread in Asia
 - C. the flower is easy to plant
 - D. the flower is expensive
42. "... because it originated in warm ..." (paragraph 3, line 10)
The underlined word refers to
- A. the flower
 - B. the species
 - C. the soil
